B.Cu (scale 1:1)

The image shows a portion of a PCB layout design. It includes several green conductive traces forming loops and straight paths. There are also small circular pads representing vias or component footprints. A few rectangular shapes represent surface-mount components. The entire design is contained within a large white square frame.

B.Cu (scale 1:1)

The figure shows a large rectangular area representing the back copper layer (B.Cu) of a PCB at scale 1:1. The area is mostly white, indicating no copper, with some very faint green traces and pads visible near the top center.

F.Mask (scale 1:1)

The diagram illustrates a PCB mask layout. At the top left, there are two horizontal rows of rectangular pads. The upper row contains four pads, and the lower row contains three pads. To the right of these, there are three circular vias arranged in a triangular pattern. Further up and to the right, there is a single small square pad.
