F.Cu (scale 1:1)

The image shows a technical drawing of a PCB layout for a fish-shaped board. The board is dark red with white traces. It features a complex top section with multiple pads and a small square pad. Below this is a vertical section with two pairs of circular pads. The board is surrounded by four circular mounting holes. The drawing is enclosed in a rectangular frame with a coordinate grid (A-C, 1-5) and a title block at the bottom right.

F.Mask (scale 1:1)

The diagram shows a white rectangular area representing the PCB mask. It contains several purple geometric shapes: four small squares arranged in a horizontal row near the top left; two pairs of small circles stacked vertically below them; a single small square and a single small circle to the right of those stacks; a single small square further down and to the right; and three larger solid circles located at approximately (top-left), (middle-right), and (bottom-right) positions.

F.Mask (scale 1:1)

The diagram shows a top-down view of a PCB mask. It includes several components represented by standard symbols: four resistors (yellow rectangles), two electrolytic capacitors (blue circles with '+' signs), one surface-mount capacitor (green circle), three through-hole pads (red circles), and one microvia (blue square). The components are arranged in a specific layout on a white background.

B.Silkscreen (scale 1:1)

The figure shows a PCB layout titled "B.Silkscreen (scale 1:1)". It includes a grid with columns 1-6 and rows A-D. The main layout area contains two components: a resistor labeled "R1" at approximately (2.5, 2.5) and another labeled "R2" at approximately (3.8, 4.8). At the bottom right, there is a metadata table.

B.Silkscreen (scale 1:1)

The figure shows a blank white rectangle centered on a grid background, intended for the PCB silkscreen design.
